

Technical drawing of a mechanical part, showing front and side views with dimensions and labels.

Front View (Left):

- Overall width: 15 mm (indicated by a square symbol $\square 15$).
- Overall height: 11.2 mm.
- Central circular feature with a dashed outer circle and a solid inner circle.
- Four small circular features (holes) arranged in a square pattern around the center, each with a diameter of $\phi 2.6$ mm (labeled as 4- $\phi 2.6$ 관통).
- Corner radius: $R2$ (labeled as 4-R2).
- Dimension 2-1.2 indicates the distance from the center to the center of the corner holes.

Side View (Right):

- Overall width: 20.8 mm.
- Overall height: 10.2 mm.
- Internal features are numbered 1, 2, 3, and 4.
- Dimensions for the side view include:
 - Overall width: 20.8 mm.
 - Distance from the left face to the first internal step: 5 mm.
 - Distance between the first and second internal steps: 5 mm.
 - Distance from the second internal step to the right face: 9 mm.
 - Distance from the second internal step to the third internal step: 4.5 mm.
 - Distance from the third internal step to the right face: 3 mm.
 - Overall height: 10.2 mm.
 - Internal diameters: $\phi 9.4$, $\phi 7$, and $\phi 1.2$.
